"Proceedings of the Indian Academy of Sciences"

INDEX TO VOL. LIII—(A)

AUTHORS' INDEX

Anantakrishnan, S. V. and Radhakrishnamurti, P. S. — Kinetic studies in ester hydrolysis, Part X, 28.

Bagavant, G. .. *See* Banerjee and Bagavant.

Balachandran, A. P. .. *See* Ramakrishnan and others.

Balasubramanian, C. .. *See* Venkateswarlu and Balasubramanian.

Balasubramanyam, K. .. Raman spectra of addition compounds of glycine (diglycine hydrochloride, diglycine hydrobromide and diglycine nitrate), 105.

Banerjee, D. K. and Bagavant, G. — Synthesis of the lactone of 2-carboxy-4-hydroxy-7-methoxy-1, 2, 3, 4-tetrahydrophenanthrone, 113.

Basu, B. K. and Srivastava, S. P. — On the logical and circuit design of the digital computer at T.I.F.R., Bombay, 44.

Bhamathi, G. .. *See* Ramakrishnan and others.

Bhargava, B. N. and Subrahmanyan, R. V. — A study of the pre-sunrise F-layer stratification at Kodaikanal, 227.

Bhat, A. N. and Jain, B. D. — 3-Acetyl-4-hydroxycoumarin as a reagent for the gravimetric determination of zirconium and titanium, 147.

Bhatnagar, P. L. .. On two-dimensional boundary layer in non-Newtonian fluids with constant coefficients of viscosity and cross-viscosity, 95.

Das, M. Ramachandra, Patankar, Arvind V. and Venkataraman, Balu — Electron spin resonance studies of the free radicals derived from tetraphenylhydrazine, 273.

Duggal, V. P., Rao, K. Raghavendra, Thapar, C. L. and Singh, V. — Anomalous reflections in a single crystal neutron spectrometer, 59.

Indumathi, S. .. *See* Ramakrishnan and others.

Jain, A. C. .. On compressible boundary layer on a flat plate with uniform suction, 12.

Jain, B. D. .. *See* Bhat and Jain.

Krishnan, K. .. The Raman spectra of organic compounds, Part I, 151.

Lagu, R. G. and Thosar, B. V. Fluorescence and scintillation spectra of CsI (Tl) crystal, 219.

Masood, S. .. Some theorems on self-reciprocal functions, 35.

Mathai, I. M. .. Role of solvent in chemical reactions, Part IV, 73.

Patankar, Arvind V. .. *See* Das and others.

Pillai, M. G. Krishna .. *See* Venkateswarlu and others.

Radhakrishnamurti, P. S. .. *See* Anantakrishnan and Radhakrishnamurti.

Ramachandran, G. N. .. On faltung and correlation of functions and their application in physical problems, 123.

Ramakrishnan, Alladi, Balachandran, A. P. and Ranganathan, N. R. Some remarks on the structure of elementary particle interactions, 1.

Ramakrishnan, Alladi, Bhamathi, G. and Indumathi, S. A limiting process in quantum electrodynamics, 206.

Ramaswamy, K. .. *See* Venkateswarlu and others.

Ranganathan, N. R. .. *See* Ramakrishnan and others.

Rangaswami, S. and Sambamurthy, K. Chemical examination of the leaves of *Rhododendron campanulatum* D. Don., 98.

Rao, B. N. Subba .. Photoelectron scintillation spectrometer and the conversion coefficient of the 279 Kev. transitions in Tl^{203}, 244.

Rao, K. Raghavendra .. *See* Dnggal and others.

Rao, S. K. Lakshmana .. On the relation extrema of the Turán expression for Bessel functions, 239.

Rao, S. Thyagaraja .. The relation between electromagnetic and gravitational interactions, 323.

Sambamurthy, K. .. *See* Rangaswami and Sambamurthy.

Sasisekharan, V. .. Helical conformations of polypeptide chains, 296.

Singh, V. .. *See* Duggal and others.

Sivarajan, S. R. and Vold, R. D. Micellar size and shape in solutions of calcium stearate in cetane from optical depolarization data, 136.

Srinivasan, R. .. The significance of the phase synthesis, 252.

Srinivasa Raghavan, R. .. On the possibility of a new phase-determining method applying the Mössbauer Effect, 265.

Srivastava, S. P. .. *See* Basu and Srivastava.

Subrahmanyan, R. V. .. *See* Bhargava and Subrahmanyan.

Sundara Rajan, A. .. Microwave spectrum of trichloroacetonitrile, 89.

Thapar, C. L. .. *See* Duggal and others.

Thosar, B. V. .. *See* Lagu and Thosar.

Venkataraman, Balu .. *See* Das and others.

Venkatasubramanian, N. .. Studies in oxidation : Oxidation of some aromatic secondary alcohols with chromium (VI) oxide—Part II, 80.

Venkateswarlu, K. and Balasubramanian, C. .. Solvent effect on $C \equiv N$ vibration in Raman Effect, 202.

Venkateswarlu, K., Pillai, M. G. Krishna and Ramaswamy, K. Intensity studies in Raman Effect—Positional isomerism, 195.

Viswanathan, K. S. .. The correlated Hartree-Fock equations and the generalised density matrices, 169.

Vold, R. D. .. *See* Sivarajan and Vold.

Waghmare, T. R. .. Charge distribution of the proton, 214.

TITLE INDEX

Bessel functions, on the relative extrema of the Turán expression for (Rao), 239.

Boundary layer, compressible, on a flat plate with uniform suction (Jain), 12.

Boundary layer, two-dimensional, in non-Newtonian fluids with constant coefficients of viscosity and cross-viscosity (Bhatnagar), 95.

Computer, digital, at T.I.F.R., Bombay, on the logical and circuit design of (Basu and Srivastava), 44.

Correlated Hartree-Fock equations and the generalised density matrices (Viswanathan), 169.

Electromagnetic and gravitational interactions, the relation between (Rao), 323.

Electron spin resonance studies of the free radicals derived from tetraphenylhydrazine (Das and others), 273.

Elementary particle interactions, some remarks on the structure (Ramakrishnan and others), 1.

Faltung and correlation of functions and their application in physical problems (Ramachandran), 123.

Fluorescence and scintillation spectra of CsI (Tl) crystal (Lagu and Thosar), 219.

Helical conformations of polypeptide chains (Sasisekharan), 296.

Kinetic studies in ester hydrolysis, X (Anantakrishnan and Radhakrishnamurti), 28.

Lactone of 2-carboxy-4-hydroxy-7-methoxy-1, 2, 3, 4-tetrahydrophenanthrone (Banerjee and Bagavant), 113.

Micellar size and shape in solutions of calcium stearate in cetane from optical depolarization data (Sivarajan and Vold), 136.

Microwave spectrum of trichloroacetonitrile (Sundara Rajan), 89.

Neutron spectrometer, single crystal, anomalous reflections in (Duggal and others), 59.

Oxidation, studies in: Oxidation of some aromatic secondary alcohols with chromium (VI) oxide, Part II (Venkatasubramanian), 80.

Phase-determining method, new, applying the Mössbauer Effect, on the possibility of (Srinivasa Raghavan), 265.

Phase synthesis, the significance of (Srinivasan), 252.

Photoelectron scintillation spectrometer and the conversion coefficient of the 279 Kev. transitions in Tl^{208} (Rao), 244.

Pre-sunrise F-layer stratification at Kodaikanal, a study of the (Bhargava and Subrahmanyan), 227.

Proton, charge distribution of (Waghmare), 214.

Quantum electrodynamics, a limiting process in (Ramakrishnan and others), 206.

Raman Effect, intensity studiesin—positional isomerism (Venkateswarlu and others), 195.

Raman Effect, solvent effect on C ≡ N vibration in (Venkateswarlu and Balasubramanian), 202.

Raman spectra of addition compounds of glycine (diglycine hydrochloride, diglycine hydrobromide and diglycine nitrate) (Balasubramanyam), 105.

Raman spectra of organic compounds, I (Krishnan), 151.

Rhododendron campanulatum D. Don., leaves of, chemical examination of (Rangaswami and Sambamurthy), 98.

Self-reciprocal functions, some theorems on (Masood), 35.

Solvent, role of, in chemical reactions, IV (Mathai), 73.

Zirconium and titanium, gravimetric determination, 3-acetyl-4-hydroxy-coumarin as a reagent for (Bhat and Jain), 147.
